Dear ARIR Community,

Thank you all for your support and for being part of building the first IR platform in Romania!

We started this journey 1 year ago and we are proud of what we have achieved so far.

We are the youngest IR association, but also one of the most active ones on a global scale. During the last 12 months, we organized over 20 events for our members and the capital market community, a Forum with more than 10 international speakers, relaunched VEKTOR project, which analyzes the communication between listed companies and investors, concluded several international partnerships - including offering an international certificate in Investor Relations - and we had over 600 mentions in the media.

We started with the purpose of making the Romanian capital market more transparent and led by a better corporate governance. We have in mind investors and the need to attract more capital to the market. We are proud to have acknowledged the best professionals on the capital market for the first time in Romania at our one-year anniversary and we will continue to strive to make a difference.

Our most important project for the next year will be VEKTOR, led by Daniela Aldescu, ARIR Deputy CEO, and of course we will continue building best practices in Investor Relations.

DANIELA ȘERBAN
ARIR PRESIDENT
